A deserving case. Please examine and put up.

You will remember that Sri R. Venugopal Rao, Health Inspector was a Special Leprosy Health Inspector, Shirva as a result of certain remarks made by me after a study of the leprosy situation in Shirva. When I visited Shirva in 1948 Sri Venugopal Rao was the Health Inspector and I was very much impressed by his earnestness and sincere interest in the cause of leprosy. Dr. Cochrane who visited Shirva subsequent to my visit was equally impressed with Sri Venugopal Rao. We were both very keen in obtaining the services of Sri Venugopal Rao as a Special Leprosy Health Inspector, ^{Shirva} South Kanara. Unfortunately Sri Venugopal Rao, he has had really to suffer monetarily by being appointed Special Leprosy Health Inspector, Shirva. At the time he was working in Shirva he was holding a post in the W.H.O malaria scheme in the district. The following table represents what he would have drawn had he been engaged in the W.H.O work and what he drew as Special Health Inspector.

made good in some manner, but I fear so far nothing beneficial to him has resulted out of his representations. He has now finished his survey of Shirva area and submitted a very valuable report and gone back to the W.H.O work in Malabar. As I feel that Sri Venugopal Rao has had to pay heavily by way of monetary loss for his interest in leprosy I request you to help him in some tangible way. I feel particularly concerned in this matter because I was one of the two people responsible for suggesting his name for the Special Inspectors place. I shall be personally very grateful to you for endeavouring to do your best in the matter.

With kindest regards,

Yours sincerely,

Ex-Special Leprosy Health Inspector, Shirva

and 2) Government endorsement No. 40855-L-52-1-H
dated 12-9-1952. P-5 and

I forward herewith, the petition dated 12-7-'52 of Sri
R. Venugopal Rao, Ex. Special Leprosy Health Inspector, Shirva,
South Kanara District for the grant of Special pay, compensatory
allowances, etc for the period during which he was working as
Special Leprosy Health Inspector.

2. In this connection, it may be stated that, on completion
of his training at the Government Leprosy Sanatorium, Tirumani,
Chingleput District, the petitioner was posted as Special Leprosy
Health Inspector, Shirva, South Kanara District from 21-12-'50, to
31-3-'52, - the date on which the post was abolished.

3. The case of the petitioner is really hard in that while
losing the special allowances he drew in the World Health Organisa-
tion, Malaria Scheme, where he was working, before being sent for
Leprosy training and on posting to Shirva Leprosy Scheme, he had
not drawn the usual allowances of a range Health Inspector even
though he was posted as Health Inspector in an approved Leprosy
Scheme after three months' Special training, in a Leprosy Sanatori-
um. He was thus put to a loss in emoluments, during his services
as special Leprosy Health Inspector.

4. In the circumstances, I recommend, that Government may be
pleased to accord sanction to the payment of Fixed Travelling
Allowance of Rs.33/- per mensem to the petitioner, for the period
from 21-12-'50 to 31-3-'52, during which he was special Leprosy
Health Inspector, relaxing the five mile limit prescribed in Rule
64 of the Madras Travelling Allowance Rules in the Manual of
special pay and allowances as a special case on the analogy of
Health Inspectors in epidemic/duty and malaria duty in Project
and other Special areas.

P 55 C L
(K) 5. Further, in G.O. Ms.No. 2615 Health dated 13-8-'52,
Government have since accorded the grant of a special pay of Rs.20/-
per mensem to each Health Inspector and Rs. 2/- per mensem to
each peon employed under him in connection with approved Leprosy
Schemes in the State. Though the petitioner, Sri R. Venugopal Rao
was employed in an approved Leprosy Scheme, he did not draw any
Special Pay, during the period he was actually working as Special
Leprosy Health Inspector, Shirva. As the petitioner, was working

Humble petition of Sri. R. Venugopal Rao,

Respected Sir,

Leprosy - scheme for the prevention of Leprosy
in Shirva area (South Kanara) - post of Special
Leprosy Health Inspector - special pay and
allowances - sanctioned prayed for -

17
pp 57-58
p 306 (A)

I submit that I was withdrawn from my present
post under the World Health Organization, Ernad in
September 1950 and sent up for a special course of
training for 3 months at the Government Leprosy sana-
torium, Tirumani and Madapet. After successful
completion of my training I was appointed as a special
Leprosy Health Inspector, Shirva, which post was san-
ctioned in G.O. 1326 Health dated 15.4.50 and continued
as per G.O. Mis. 693 Health dated 2.3.51. In this
connection, I humbly beg to represent that I was
put to great financial loss and hardship by that spe-
cial appointment for the reasons specified below and
respectfully pray to examine my case and redress my
real grievances.

2. This special appointment with additional qua-
lifications brought about an adverse change in my emo-
luments to an extent of Rs. 2000/- and odd as can be
seen below:-

(1)		(2)
Emoluments on malaria duty: Before and after the special appointment.		Emoluments as le- prosy worker on special appointment
pay	122	122
special pay	30-8-0	Nil
unhealthy locality		
special pay	36	Nil
dearness allowance	41	29
fixed travelling allowance.	43/14/-	Nil ✓
	-----	-----
total	273/6/-	151/-
	-----	-----

It will thus be obvious that I was put to a recurring loss of Rs.122/- per mensem by the special appointment got in virtue of my special aptitude and service in the field of leprosy for over 2 decades. In this connection I may further submit that Dr. R.J. Cochrane who visited Shirva in 1948 to investigate into the incidents of leprosy toured the area and conceded the difficult nature of tackling the problem on account of the peculiar features of the district viz., general set up of villages with sporadic distribution of houses at great distance from one another, heavy monsoon covering for a period of 4 months and the various regional languages. He found that a man unfamiliar with the local conditions will not be able to successfully carry on the work to his expectation. So he strongly recommended to government in his report that I was eminently fitted for the job and that I should be appointed as special Leprosy Health Inspector after a training for 3 months and be given salary field allowances etc. which are sanctioned for malaria health inspectors, as can be seen from the extract of his report submitted herewith. I was further expressly made to understand that a special pay of Rs.80/- during the training period and Rs.50/- after the training besides field allowances as is being paid to the staff of the provincial Leprosy survey unit and house rent allowances etc. would be paid for the special appointment. I submit that it is an irony of fate that when I expected a better reward for all the hard and good work done all these 26 years my emoluments were reduced by half in the special appointment after the special training. Even the privileges of special pay of 25% and fixed ~~xxx~~ travelling allowances given to the malaria health inspectors in the same district are not extended to me for doing more arduous nature of work by knocking every house in the entire area comprising 20 villages. The nature of work carried on ordinarily by health inspectors is quite different from that of special Leprosy Health Inspector, as public could appreciate D.D.T. spray or any epidemic duty as it is calculated to give immediate relief, while my work is to tackle unwilling human personalities, who are normally healthy for examination of clinical symptoms of leprosy, which is an unpleasant job and more so in tackling the members of the other sex. Had I been allowed to continue in my present post as desired by the W.H.O. Team Leader Dr. L. Mara, who had a high appreciation for my good work in his team, as can be seen from the copy of his report, I would not have been put to this heavy loss. Apart from the monetary loss, I was labouring under a very great physical strain, as even the absolute facilities for carrying on the work were not given such as poor, office accommodation, fixation of convenient Headquarters, supply of forms and stationery, though the Director of Medical services recommended a year ago. On my representation to the Director of Medical services he was pleased to examine my case and send up proposals to government for the conversion of the post of special Leprosy Health Inspector into special Leprosy Officer on a scale of pay 100-10-280, which was also turned down. Notwithstanding the very discouraging service conditions, I finished the work allotted to me within the prescribed period and to the expectation of the inspecting authorities, who have expressed a sense of satisfaction regarding the technique and thoroughness of work. The district Leprosy workers conference was organised by me under the patronage

21

patronage of the local relief Association and enlisted the good-will and co-operation of the philanthropic members of the public and heads of the religious mutts of Udipi viz., Sode Mutt and Adhamar Mutt, who have generously promised the gift of necessary buildings and equipment for the rehabilitation camp and treatment centres in Shirva area, when the scheme would materialise.

3. For the reasons set forth above I need hardly submit that I had become a helpless victim of peculiarly unfortunate circumstance, by my appointment to that special post and that my case is a hard and pathetic one deserving sympathetic consideration of the government as early as possible. My previous petition submitted to the government last year is pending the esteemed consideration. I therefore respectfully pray that the benign government may be graciously pleased to sanction Rs.50/- as special pay besides the compensatory allowances and Fixed Travelling Allowance already recommended by the director of medical services, to save me from the substantial loss incurred during the special appointment.

4. For which act of kindness and justice, I shall ever remain grateful.

I remain,
Respected sir,
Yours faithfully,

Health Inspector,
W. H. O. Kalikavu.

Extract of the report of the director, Leprosy campaign - Tour to Mangalore.

** *

Survey - Mr. Venugopal Rao, Health Inspector, Udipi, by temperament, by enthusiasm and by intelligence appears to be the right type of person to undertake this work, therefore I strongly recommend that he be sent to Chingleput and Gaidapet to undertake a 3-months course in survey and social welfare, at government expense, his salary being met while he undertakes his course and the usual T. A. be allowed. When this course is finished I strongly recommend that he be appointed as a special leprosy health inspector and be given a salary, field allowance and other allowances which are sanctioned for special malaria health inspectors. I then recommend that he be deputed for special work for a period of one year in the first instance and that he sends his report to the director, Leprosy campaign each six months.

has forwarded the petition of Sri Venugopaladasu. He points out that the case of the petitioner is really a hard one. He recommends that the Govt may sanction the payment of F.T.A of Rs 33 p.m to the petitioner for the period from 21-12-50 to 31-3-52, during which he was Special

Leprosy Health Inspector
 relaxing the five mile
 limit prescribed in Rule
 64 of the M.T.A Rules as
 a special case on the
 analogy of H.O.s in
 epidemic duty and
 malaria duty in Project
 and other Special areas.
 The D.P.H. also recommends
 that the Govt. may
 permit the petitioner to
 draw, as a special case,
 the special pay of Rs 20,
 sanctioned in G.O. No 2615
 H.O. d. 13-8-52, for the
 period from 21-12-50 to
 31-3-52. The D.M.S. agrees
 with the recommendations
 of the D.P.H. The Hong
 Secy, H.K.N.S. (Madras
 South Branch) has also
 addressed a M (H) for
 the grant of special
 pay and allowances
 to the petitioner. M (H)
 has also recommended that the
 case of the petitioner is
 a deserving one. In
 these circumstances,
 it is for orders
